Objectives and Deliverables

Objectives for the Task Force – Executive Order 32

- Monitor progress and evaluate all data from state level stakeholders, including data from third-party payers, to understand quality of maternal health care with regards to race, ethnicity, and other demographic and clinical outcomes data,
- Monitor progress and evaluate data from existing state level sources mandated for maternal care, including HEDIS measure updates to prenatal and postpartum care and postpartum depression,
- Examine barriers preventing the collection and reporting of timely maternal health data from all stakeholders, including payers,
- Examine current maternal health programs and initiatives and review available outcome measures,
- Determine current maternal mental health programs, initiatives, and outcome measures,
- Evaluate the impact of Social Determinants of Health screenings, and
- Analyze other available data, including local-health district level data one year post-delivery.

## Deliverables for the Task Force – Executive Order 32

- Develop recommendations, based on best practices, for standard quality metrics on maternal health care

Ideation Plan

Individual Reflection

What did you hear today and in previous Task Force meetings that revealed maternal health opportunities or unmet needs?

Small Group Discussion

Action: Share your reflections

Discussion: Based on your reflections, what specific policy or programmatic changes would you recommend?
